

The U11 Stackers of Roysia entered into a speedstacking competition lead by the Queen of Stackers – Jocelyn Holcroft. The evening consisted of various practice and fun stations, as well as the main event table where the children had to perform a 3-3-3 stack, followed by a 3-6-3 stack, both timed (if this doesn't mean anything to you, then it is worth looking up). Needless to say, the students represented the school well and had a great time in the process. Some really quick times and personal bests were achieved by many, and great fun was had by all.
